

Lifeline Collar - Size Chart

Measure your dog's neck and pick the size that matches. One A4 page - print it, pin it by the lead.

Step 01: Use a soft tape measure, or a strip of paper and a ruler.

Step 02: Snug, not tight - two fingers should just slide under.

Step 03: Measure where the collar sits: high on the neck, just behind the ears.

Step 04: If between sizes, size up - a too-snug collar fails the SOS button discoverability.

XS: 22-28 cm

S: 28-34 cm

M: 34-40 cm

L: 40-46 cm

XL: 46-52 cm

Measure where the collar sits on the neck - high, just behind the ears. Snug, not tight: two fingers should slide under. If between sizes, go up. Join the first-100 list: lifeline-collars.polsia.app/#waitlist
